TUBERCLE

Index to Volume 62 (1981)

Ali, Mir M.: see Zvetina, J. R. and others
Allan, W. G. L.: see Jenner, P. J. and others
Allan, W.G. L., Snell, N. J. C., Hill, L.E., Fayers, P. M., Scadding, J. G. and Fox, W.: A survey of deaths in Hong Kong attributed to Tuberculosis 1
Alvoch, J. A.: see Nsanzumuhire, H. and others
Antituberculosis activity of 6 cyclo-octylamino 5, 8 quinolinequinone (CQQ)[1] 37
Atypical mycobacteria?, Typical or – 295
Azadian, B. S., Beck, A., Curtis, J. R., Cherrington, L. E., Gower, P. E., Phillips, M., Eastwood, J. B. and Nicholls, J.: Disseminated infection with *mycobacterium chelonei* in a haemodialysis patient 281

Bahr, G. M.: see Rook, G. A. W. and others
B.C.G. vaccination effective?, Is – 219
Beck, A.: see Azadian, B. S. and others
Bishop, P. J.: Laennec: a great student of tuberculosis 129
Blacklock, Z. M.: see Dawson, D. J. and others
Bone, M. and Stableforth, D.: Miliary infection due to *Mycobacterium avium-intracellulare* 211
Book Reviews 73, 149, 225
Bovine strains of *Mycobacterium tuberculosis*, isolated from humans in South-East England, 1977–1979, A study of – 113
Bovine tuberculosis in badgers 145
Brostof, J., Lenzini, L., Rottoli, P. and Rottoli, L. Immune complexes in the spectrum of tuberculosis 169

Case-finding methods for pulmonary tuberculosis in Kenya, including the use of community leaders, A third study of – 79
Cell-mediated response to mycobacteria on the protective efficacy of BCG, The effect of two distinct forms of – 63
Chakraborty, A., Gangadharam, R., Damle, P., Pratt, P., Wright, P. and Davidson, P. T.: Antituberculosis activity of 6 cyclo-octylamino-5,8-quinolinequinore (CQQ) 37
Chemoprophylaxis for tuberculosis 69
Cherrington, L. E.: see Azadian, B. S. and others
Chitle, A. R.: see Shan, S. C. and others
Clofazimine against *Mycobacterium intracellulare*, Dynamic aspects of the activity of – 201
Collins, C. H., Yates, M. D. and Grange, J. M.: A study of Bovine strains of *Mycobacterium Tuberculosis* isolated from humans in South-East England, 1977–1979 113
Collins, C. H.: see Yates, M. D. and others
Curtis, J. R.: see Azadian, B. S. and others

Damle, P.: see Chakraborty, A. and others
Damle, P. B.: see Gangadharam, P. R. and others
Davidson, P. T.: see Chakraborty, A. and others
Davidson, P. T.: see Gangadharam, P. R. and others
Dawson, D. J., Blacklock, Z. M., Hayward, A. J. and Walsh, M. J.: Differential identification of mycobacteria in smears of sputum 257
Deaths in Hong Kong, A survey of – attributed to tuberculosis 1
Decontamination of sputum and its influence on the niacin test, The cetylpyridinium bromide 271
Default in out-patients collecting supplies of drugs for pulmonary tuberculosis in a large city in South India, A randomised study of two policies for managing 103
Difilippo, M.: see Zvetina, J. R. and others
Donosepoetro, M.: see Kardjito, T. and others
Droubie, A. J.: see Gangadharam, P. R.

Eastwood, J. B.: see Azadian, B. S. and others
Edwards, E. A.: see Nsanzumuhire, H. and others
El Hassan, A. M.: see Tageblin, M. H. and others
Ellard, G. A.: see Jenner, P. J. and others
Empyema presenting over thirty years after pulmonary tuberculosis 139
Environmental mycobacteria may predetermine the protective efficacy of BCG, How – 55
Ethambutol, Hypersensitivity to – 215
Ethambutol plus isoniazid for the treatment of pulmonary tuberculosis—a controlled trial of four regimens 13

Fayers, P. M.: see Allan W. G. L. and others
Flexible fibreoptic bronchoscopy in the diagnosis of pulmonary tuberculosis 197
Fodor, T., Kelenffy, I. and Szabo, I.: The cetylpyridinium bromide decontamination of sputum and its influence on the niacin test 271
Fox, W.: see Allan, W. G. L. and others

Fox, W.: see Krishnaswami, K. V. and others
Fox, W.: see Nsanzumuhire, H. and others
Fukaya, Y.: see Tsukamura, M. and others

Gangadharam, P. R. and Droubi, A. J.: Identification of mycobacteria by smear examination of the culture 123
Gangadharam, P. R., Pratt, P. F., Damle, P. B. and Davidson, P. T.: Dynamic aspects of the activity of clofazimine against *Mycobacterium intracellulare* 201
Gangadharam, P. R.: see Chakraborty, A. and others
Gatner, E. M. S. and Rubenstein, E.: The pattern of age-specific tuberculin sensitivity in two groups of South African schoolchildren 181
Girling, D. J.: see Jenner, P. J. and others
Goodfellow, M. and Minnikin, D. E.: Identification of *Mycobacterium chelonei* by thin-layer chromatographic analysis of whole-organism methanolysates 285
Gower, P. E.: see Azadian, B. S. and others
Grange, J. M.: see Collins, C. H. and others
Grange, J. M.: see Kardjito, T. and others
Grange, J. M.: Symposium on *mycobacterium chelonei, Mycobacterium chelonei* 273
Green, M.: see Williams, G. and others

Hayward, A. J.: see Dawson, D. J. and others
Hemangini, L.: see Shan, S. C. and others
Herzog, C.: Multiple-puncture tuberculin testing: reason for variable response to tine test 249
Hill, L. E.: see Allan, W. G. L. and others

Identification of mycobacteria by smear examination of the culture 123
Immune complexes in the spectrum of tuberculosis 169
Intra-cellular mycobacteria in experimental mouse tuberculosis, an electron microscopy study of – 187

Jackson, P. G., Keen, H., Noble, C. J. and Simmons-N. A.: Injection abscesses due to *Mycobacterium chelonei* occurring in a diabetic patient 277
Jenner, P. J., Ellard, G. A., Allan, W. G. L., Singh, D., Girling, D. J. and Nunn, A. J.: Serum uric acid concentrations and arthralgia among patients treated with pyrazinamide-containing regimens in Hong Kong and Singapore 175

Kanai, K., Kondo, E. and Yasuda, J.: An electron microscopy study of intra-cellular mycobacteria in experimental mouse tuberculosis 187
Kardjito, T., Donosepoetro, M. and Grange, J. M.: The Mantoux test in tuberculosis: correlations between the diameters of the dermal responses and the serum protein levels 31
Karuga, W. K.: see Nsanzumuhire, H. and others
Keen, H.: see Jackson, P. G. and others
Kelenffy, Sz.: see Fodor, T.
Kerremans, A., Majoor, C. L. H. and Gribnau, F. W. J.: Hypersensitivity to Ethambutol 215
Kondo, E.: see Kanai, K. and others
Krishnaswami, K. V., Somasundaram, P. R., Tripathy, S. P., Vaidyanathan, B., Radhakrishna, S. and Fox, W.: Randomised study of two policies for managing default in out-patients collecting supplies of drugs for pulmonary tuberculosis in a large city in South India 103
Kumar, S., Chandrasekar, D., Rao, M. S. and Banerjee, C. K.: Solitary paravesical tuberculoma masquerading as bladder carcinoma 143

Laennec 147
Laennec: A great student of tuberculosis 129
Leading article—
Bovine tuberculosis in badgers 145
Chemoprophylaxis for tuberculosis 69
Is B.C.G. vaccination effective? 219
Laennec 147
Typical or atypical mycobacteria? 295
Lenzini, L.: see Brostof, J. and others
Letter to the Editor 223
Lundgren, R.: see Uddenfeldt, M. and Lundgren, R.
Lunn, J. A.: Tuberculin tine tests: effect of variations in dried tuberculin coating 241

Mantoux test in tuberculosis: Correlations between the diameters of the dermal responses and the serum protein levels 31
Mayurnath, S.: see Narain, R. and others
Minnikin, D. E.: see Goodfellow, M. and Minnikin, D. E.
Mustapha, I. E.: see Tageldin, M. H. and others
Mizuno, S.: see Tsukamura, M. and others
Murata, H.: see Tsukamura, M. and others
Mycobacterium arium-intracellulare, Miliary infection due to – 211
Mycobacterium arium-M. intracellulare complex together in the sputum of patients with pulmonary tuberculosis, occurrence of *Mycobacterium tuberculosis* and strains of the – 43
Mycobacterium chelonei 273
Mycobacterium chelonei by thin-layer chromatographic analysis of whole-organism methanolysates, Identification of – 285
Mycobacterium chelonei, Isoelectric focusing studies on – 289
Mycobacterium chelonei occurring in a diabetic patient, Injection abscesses due to – 277
Mycobacterium chelonei in a haemodialysis patient, Disseminated infection with – 281

Mycobacterium kansasii empyema 135
Mycophages from lysogenic bovine strains, spontaneous release of – 263

Narain, R., Vallishayee, R. S. and Mayurmath, S.: Post-vaccination tuberculin sensitivity for assessing BCG vaccination in areas with high prevalence of non-specific sensitivity 231
Nicholls, J.: see Azadian, B. S. and others
Noble, C. J.: see Jackson, P. G. and others
